

# Bryant Plastic Products Ltd

Yet another great addition to our ever growing range of cages

With an overall height of 1530mm, allows users to see over the top of our brand new cage. This height also allows access into areas with low entry points. Fitted with 160mm black rubber castors as standard, makes moving a loaded cage much easier. External push pull handles prevents contamination to clean linen by dirty handles and at the same time protects hands from soiled linen. A low front and open roof allows for easy access for the user. Available with or without a one piece twin zipped curtain
